

BurnerLogiX[®] to Honeywell RM7800/RM7840 Adapter

60-BLX-HON-VP 60-BLX-HON-NVP

Upgrade your flame safeguard system with the Fireeye wiring base adapters.

With the 60-BLX-HON-VP & 60-BLX-HON-NVP Honeywell to Fireeye wiring base adapters, you can easily convert from Honeywell RM7800/7840L or G to Fireeye BurnerLogiX. Whether you're wanting more features, looking to reduce costs, or prefer high-quality, Made in USA controls, our adapters are the ideal solution for seamless integration.

Features

- **Effortless Conversion:** No complicated rewiring or reconfiguration—just a straightforward transition from Honeywell to Fireeye systems.
- **Cost-Effective Alternative:** Save on system costs without compromising quality or performance.
- **Versatile Functionality:** Supports valve proving and low gas pressure (LGP) needs, catering to a range of applications.
- **Other Features:** Modbus, Keyboard display, Annunciator available.

Models

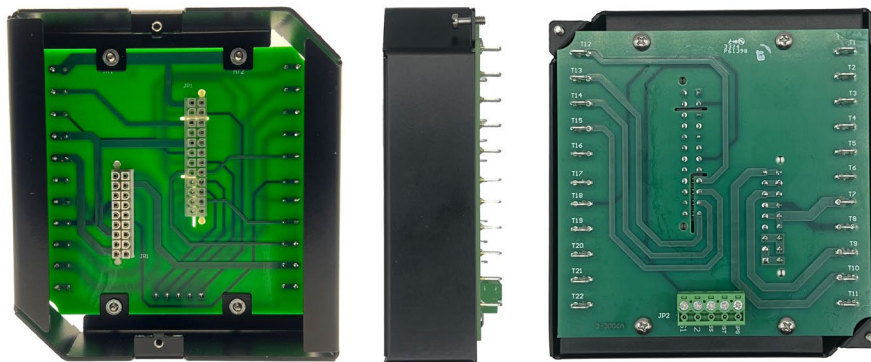

- **60-BLX-HON-VP:**
Designed for systems that require valve proving or low gas pressure (LGP) functionality.
- **60-BLX-HON-NVP:**
Perfect for systems that do NOT require valve proving or LGP functionality.

Why Make the Switch to Fireeye BurnerLogiX?

Proven reliability and performance in industrial applications

Manufactured with precision in the USA
